New Mystery Injected in Morehouse Case

IN LAKE ONLY 48 HOURS **Doctors Make Pathological** Report

By United Press NEW ORLEANS, Oct. 31.-The bodies of Thomas F. Richards and Watt Daniels, alleged victims of Morehouse men. were in the waters of Lake Lafourche less than 48 hours. Doctors Charles W. Daval and John W. Lanford today declared, injecting new mystery to the case.

"Planted", Klan Claim

Both doctors signed the pathologi-cal report presented at the open hearing at Bastrop shortly after the recovery of the bodies and it was assumed at that time that the bodies had been in the lake for some time. The bodies of the two men were found in the lake after it was dynamited and ended a long search which followed their disappearance, Members of the Ku Klux Klan have always contended the mutilated bodies were planted in the lake shortly before they were found

Sometimes I have thought that possibly Sydney Carron didn't like me and sometimes I have thought there was some peculiar knowledge, some secret which Jack has told his friend and told him to keep from me that has made him so much afraid to meet Roy Broussard and Miss Helen

Although once in a while I have thought she was a little old-fashioned, mother was right, dear little Marquise, when she said in her lust letter that probably the first three years of married life were the crucial caes. Every day I am finding out something about my husband that I never knew before. If anyone had told me that Jack

could have been so completely engrossed in his own affairs, so entirely determined to get for himself what he wanted at the cost of anything that might happen to me or anyone else who cared for him, I would have invisted that person knew nothing about my husband's character, temperament or ideals. And yet he forgot all about my father's serious illness. He put me in a post tion that I am sure he would never allow me to out him in. He humil iated my pride in a way that I probibly will never forget

Oh, I guess, little Marquise, that I had better go and read that part of mother's letter over again where she said, "Whenever you feel that maybe John is not as fine and solendid as you first imagined, do not forget that he may be having the same dis-ip-

THOUGHT FOR TODAY: OH THAT I HAD WINGS LIKE A DOVE! FOR THEN WOULD I FLY AWAY AND BE AT REST.— PS. 55:6.

Now Won't That Be Wonderful

Everything Now In Cut and Dried Form

We're well on our way to civilization of anned, food, canned music, cannod drawns and canned thought. This idea is set forward by Count Ilya Tolstoy, son of the Russian

Well, yes. We buy food canned in a tin. music canned in the phonograph and radio, and drama canned in movie form so half a dozen shows can be carried around in a suitease full of film reels.

The idea, that our thoughts also are reaching us in canned form, is true though few of us ever sized it up that way. Propagandists. of course, are the chief canners. One consolation is that a variety of caus of thought are handed to us, and we can take our pick.

It is a good thing that our thoughts are reaching us in canned form? Why not? It's merely a process of delegating our thinking to an endless procession of experts.

The man who thinks entirely for himself is a mental Jack-of-all-trades-and-master-of-none. Each question that comes up he concentrates on as if it were the most important thing in the universe. Waste of time.

Say there's going to be an eclipse of the sun. Do you waste time trying to figure out why? Certainly not. You want an astronomer to do this bit of thinking for you. He does. Newspaper is your agent or medium of exchange.

When the astronomer's auto breaks down, he turns it over to a garage mechanic instead of trying to figure it out himself.

Billions of different things to think about in our world. Tendency is for each person to single out the line of thinking, that interests him most-and concentrate off it, become an expert for others.

Printing press cans thoughts for future, fast as discovered.

WHAT HAPPENED?

President Coolidge asked the American railway operators or rather recommended to them that they reduce wheat and petroleum freight rates. Then the stocks tumbled in Wall

There are American politicians who insist that railway property would be tax peak valuations by stated authority and that the national authority shall reduce the valuations of railway property to the lowest figure.

There are others who insist that rail employes should be paid the highest of wages while others are demanding that freight rates. shall be cut to the bone.

Some problem, this will with reight problem now agitating the American people. How would the people like to go back to the ox cart. period of civilization?

WANTED—A DICTATOR

A woman leader of the democratic party holds President Coolidge responsible for an advance of three dollars a ton in the price of hord coal. Also she says the women do not like him because he is cantillicated cold blooded.

"he president has as much to do with fixing the price of coal as he has in the fixing of the price of wheat or cotton. This isn't a price fixing government. Would the aforesaid feminine leader of the democratic party have the government take over the coal mines. and operate the same as a governmental instinution?

Or would she have the government order out the regular army of the United States, surround the mines, declare martial law and compet the miners to work regardless of hours or wage schedule. There are some wild men and women loose in this land of ours. They may be leaders. If they are, so much the worse for the people.

WHY CHEAP COTTON?

An Australian now visiting in Texas, prediets that in the near future 100,000 farmers in his country will be growers of cotton. It i sa long road from Sydney to Manchester and the water freight rates are high.

Historically speaking, the boll weevil came from Egypt and the pink boll worm from India. Has the twin pest forgotten how to

English manufacturers say that they must have cheap cotton or they teannot survive. Why should the south produce cheap cotton for the world using the labor of women and children? Charity begins at home.

FORD AND COPELAND

Official Washington says that Henry Ford will shy his hat into the ring sometime in the month of November. New York advices indiests that Senator Copeland who would like to hand a presidential ticket with Henry Ford the second man, Henry Ford wouldn't potant the tail to was the dog. He's for first

80-Story Building Planned For Gotham

An office building 80 stories high will be creeted on the site of famous old Madison Square Garden in New York City.

The Woolworth building is only 58 stories, From street level to its very tip-top it measures 792 feet. The new building that will eclipse it will rise toward the sky 1100 feet, which is ever a fifth of a mile.

This will make it the highest man-made structure in the world, 100 feet taller than the Eiffel Tower in Paris. We wonder what the builders of the Tower of Babel would say to it. They'd probably gape,

The skyscraper, an American creation, is the result of the attempt to escape from high land values and the tribute or toll that has to be paid to them.

Land being too costly, the buildings bulge into the air instead of spreading out over a larger territory.

All this is a result of congestion of population-the swarming instinct that began when men banded together for common defense against wild heasts and savage rival tribes, and which has reached its worst in our generation.

An 80-story building wonderful! Well, it's a wonderful monument to our submission to a frightful economic problem-land ownership.

The airplane probably will relieve the situation by enabling men to live nundreds of miles out in the country, quickly dying to and from work, with cities abandoned except as conters of trading and recreation.

To build an 80-story building solidly and equip it with elevator and other service, requires aimost phenomenal skill and intelligence. The best brains today are in industry, not the arts or professions,

singing and dancing act-

Will Nigh, film director, is convinced that the desire to outshine everybody else, to win admiration, no matter for what reason, is the strongest derive on record, and is likely to get us in treuble if we don't look our In his eight-reel picture called "Notoriety." the director shows how the eraving for fame almost rained the life of a young girl. This timely film is at the Strand today.

"MERRY-GO-ROUND"

An advance notice says: "Merry-Go-Round," now showing at the Peoples Theatre, is a love store in every sense of the word. It is a live story, sweet and com-

pelling, with its tragic, bitter elements-realities of and unpleasant world-but with the "whole 'drama softened as by the magic touch of some divine understanding of human

It tells of Vienna, the great prewar days and the dark, dismal ones which came with the conclusion of peace. The lovers are Agnes, a little girl who is one of the slaves of the Prater. Vienna's Coney Island, and Count Franz. The latter naturally is quite unattainable for a pçasant girl; at least, respectably.

Mary Philbin, prophested as one of the film future, is the girl, Norman Kerry in the man.

Southern 7 Ale At Stake When Baylor **And Aggies Tangle**

Local Yellow Jackets Stand Some Chance To Beat Houston, But Outcome Doubtful: Longhorns Have Easy Clash With Owls

AST week brought its expected and its unexpected upsets in the realms of footbail-dom. In the east, Dartmouth upset the dope with a victory over their ancient foe, Harvard, Notre Dame continued her sterling string of victories, while in the south the biggest upset to Southern Conference fans was the defeat of the Texas Aggies at the hands of S. M. U. Rice lost to San Marcos, but the loss was not an unexpected turn, last week's "done sheet" referred to the game as a decided upset, and the poor showing made by the Owls, = CLYE, WALKER OUT

No Let-Up For Longhorns Tili Race Ends

PEP UP ELEVEN

BY MOULTON COMB.

AUSTIN. Texas, Oct. 31 .- The thief task now confronting Coaches The" Stewart, Charlie Seddon and Alex Waite, is to keep the Longhorns going at top speed. A let-down vould be disastrous, according to the coaches. The Longborns have been cinning their games in a decisive manner, but the University of Texashas not even played a conference come this season. Their first conterence game will be staged in Austin. Saturday with the Rice Owls of

The Longborns are working hard for the game with Rice. The Owls have not played well this year but tothall is uncertain. In 1921 the Longhorns defeated Rice 56 to 0 and then the Owls played A, & M, to a 7 to 7 tie. The Longhorns failed to defeat A. & M. that year. The effective against the Longhorns Sat-
